Jira Cloud Hosting & Services

CYBERBAHN

About Us

Cyberbahn Federal Solutions (CFS) is an agile and technology consulting company that works with organizations to improve their product delivery model. Our niche is Portfolio, Program, and Team Execution in an Enterprise Environment.

CFS is able to deliver value time after time for their clients because we can assess, strategize, explain, present, train from the executive level to the team level, and then help them execute the transformation and sustain afterwards. Our knowledge is cutting edge and well respected because we speak at international conferences, provide thought leadership, publish articles, books and tools, and obtain the highest certification credentials in the industry.

- ✓ FedRAMP Compliant PaaS Platform (vNOC)
 - 24x7x365 monitoring and system failure incident response
 - Premium patching
 - Backup and disaster recovery testing
 - Automatic failover, DR & COOP Sites

Benefits

- ✓ **Complete infrastructure on AWS/Azure**
- ✓ **Machines with Server-class hardware** & Operating System licenses, starting at just INR 6 per hour.
- ✓ **Free 24x7 Expert Infrastructure Support** and zero administrative effort by client
- ✓ **Free Training to in-house technical teams**
- ✓ **Cloud Migration services** at no extra cost
- ✓ **End-to-End Free Support** with defined SLA

Backup & Recovery

- ✓ System backups can be recovered with turn around time consistent with the 'Service Request Timing Table'
- ✓ The backup recovery process consists of starting a new server instance using the most recent system image, and mounting to it any volumes that are included in the daily backup.
- ✓ Databases are recovered to a consistent state.
- ✓ The resulting server will therefore be running the last known good configuration with files and databases up to the point of the backup

IT and Cloud Security

- ✓ DFARS/NIST 800-171 Security
 - Full Turn-Key Implementation Plan
 - Security Control Gap Assessment
 - FIPS 200 and Agency Control Selection
 - Implementation of Applicable Security Controls
 - Assessment of Security Controls
 - Verification from a Certifying Body Verification Team

Partners Identity and Data Protection Solutions

- ✓ Leverage best-in-class encryption and key management to stop data from being exposed to cyber-criminals
- ✓ Ensure that your data is secure and that only you have control of that data
- ✓ Provide reports to attest to your data ownership and access
- ✓ Ensure all requests to access your encrypted data (including subpoena requests or other lawful orders) – directed to you, the sole encryption key owner.
- ✓ Enforce the right to be forgotten by destroying encryption keys to data if necessary

Agile Technology Advisory

- ✓ **Already Agile Customers**
 - "AS IS" assessment of current agile framework
 - Leverage DevOps etc. to achieve "TO BE" vision
 - Setup platform
 - Train users
 - Run sprints to test cycle
 - Scale to Enterprise
- ✓ **New Agile Customers**
 - Pick sample project for agile transformation
 - "AS IS" Assessment
 - "TO BE" Vision
 - Technology platform setup
 - Train users
 - Run sprints to test cycle
 - Scale to Enterprise

MANAGED SERVICE

Basic Package

- ✓ **Consulting**
 - As Is Assessment
 - To Be Vision
 - Gap Analysis
 - Strategy & Roadmap
 - Supports xx users
- ✓ **Service**
 - Hosting
 - Server configuration
